

Pharmaceutical Software Provider

Client #10356

Our client is a well-established leader in the research, development and application of new technologies for the evolving pharmacy market. Their solutions enable pharmacies to facilitate higher fulfillment volumes, enhance patient care, and increase profitability. They successfully address core customer challenges including electronic prescribing, complicated business workflows, and increasing prescription volumes. They support all pharmacy business models including retail, mail order, long term care, and veterinary.

They have been able to scale their operations while keeping overhead low. There are currently 9 full-time employees and they continue to operate using a lean organizational and operational structure.

The owner is planning for retirement but will assist the new owner during a suitable transition period.

In 2019 the company generated \$840K in EBITDA on \$2.2M of revenue.
