

**Refrigeration & HVAC Service Provider
Acquisition Opportunity**

Client #10380

This company is a leading regional provider of commercial refrigeration and HVAC services.

Their service offering includes installation, service and repairs, and preventative maintenance to cover all aspects of the commercial and industrial HVAC and refrigeration fields.

The company serves an expansive and diverse customer base throughout the Delaware Valley and Central and Southern New Jersey.

There is a highly knowledgeable and experienced team in place. An emphasis has been placed on continuing education with field staff attending various seminars and technical sessions to provide the most current and high-quality service to clients.

They are a recognized leader in their region and much of their work now comes via repeat business.

The company is seeing a strong rebound in 2021 following the pandemic. Through the first six months of the year revenues have been in excess of \$1.2M and Seller's Discretionary Earnings exceeded \$400K.

The owners are approaching retirement and are ready to pursue other interests outside of the business. As such they have begun the process of finding an acquirer who can capitalize on their historical success while continuing to provide their clients with the same level of outstanding service.
