

Commercial Auto & Truck Repair Provider

Client #10408

This company is an established provider of car and truck repair services. The business has been in continual operation for more than 30 years and during that time has become one of the most respected companies in their region.

They specialize in medium and heavy-duty vehicles such as buses, trucks, and off-road equipment. They also service many foreign and domestic cars and light trucks.

Their customers include traditional auto shop clients (individuals and families) as well as significantly larger corporate accounts for heavier duty truck / bus work.

An experienced and tenured team of Automotive Service Excellence (ASE) certified technicians are in place to provide the highest level of workmanship to the company's customers.

Their facility is conveniently located near major thoroughfares, has ample parking, significant frontage, and the availability for continued growth and expansion. The business owners own the real estate in a separate entity, and it would be available for purchase in conjunction with the business transaction.

Revenue and Adjusted EBITDA for 2022 was \$1.83M and \$352K respectively. The \$352K reflects profitability after \$90,000 was paid for owner compensation.

The owners are planning for retirement; however, they will remain involved during a transition period subject to mutually agreeable terms to ensure the continued success of the business.

This represents an opportunity to acquire a well-known, profitable business in an in-demand industry which also has growth potential going forward.
